

## Electronic Patient Reported Outcome Measures (ePROMs) for Breast Cancer

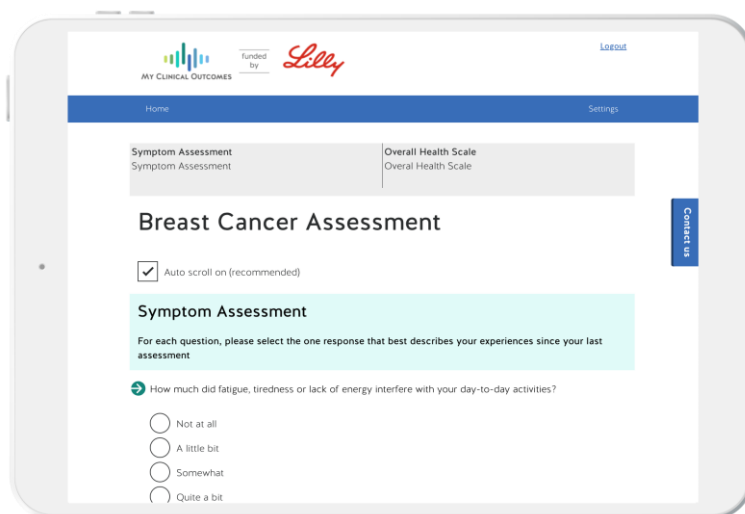

[www.LillyePROMsBreastCancer.myclinicaloutcomes.com](http://www.LillyePROMsBreastCancer.myclinicaloutcomes.com)

This digital platform is funded by Eli Lilly & Company (Lilly) as a donation and is available for your NHS service to use. Lilly has reviewed the tool for accuracy but has not had influence over its design. No patient information captured will ever be shared with Lilly.

### Introduction

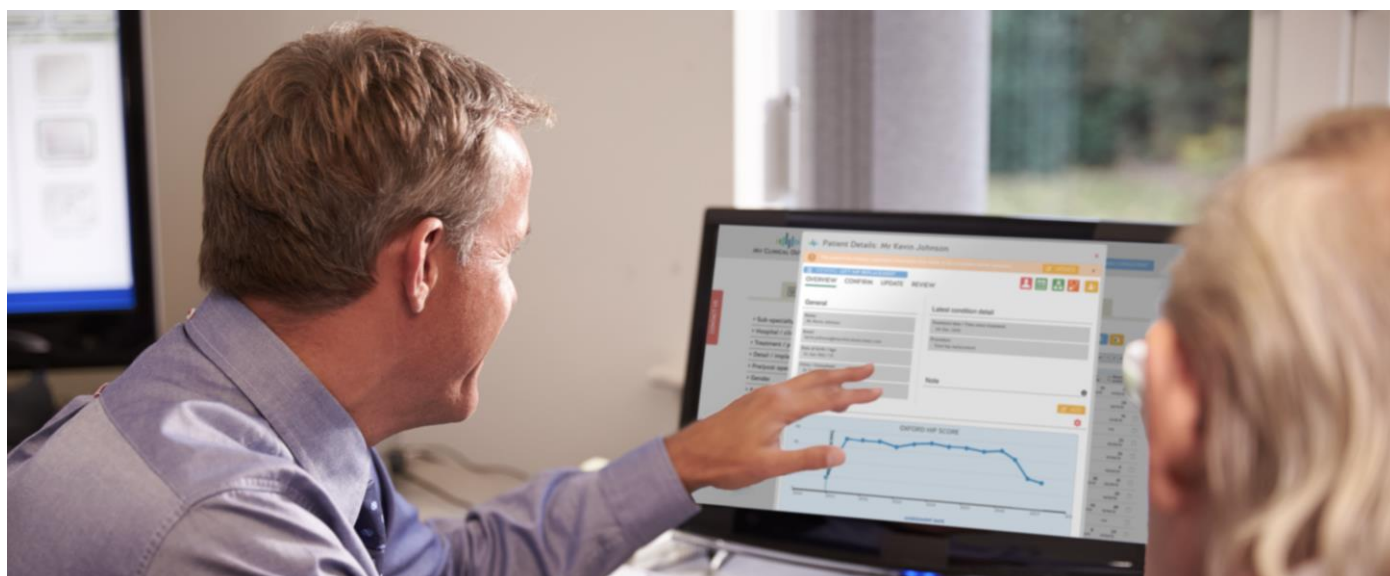

Electronic Patient Reported Outcome Measures (ePROMs) are online clinical assessments of quality of life.

Completing ePROMs helps you and your clinical team track how you are in between appointments and over time.

My Clinical Outcomes for Eli Lilly & Company

Upon registering you will be asked to complete a first ePROMs assessment. You will then be prompted by email or text message to update assessments in the weeks and months ahead. Use any internet-enabled device to capture and track your ePROMs. Results will be available to your clinical team, and you will be able to monitor your own progress by logging in to your personal dashboard at any time.

## Instructions

1

Register at:  
[www.LillyePROMsBreastCancer.myclinicaloutcomes.com](http://www.LillyePROMsBreastCancer.myclinicaloutcomes.com)

Or scan the QR code with your mobile phone to  
go direct to the link.

Registering will create your personal ePROMs  
account.

2

### Complete your first assessment

Once registration is complete, you will be prompted to complete your first  
online assessment.

3

### Log in to complete new assessments

You will receive a reminder email or text message when your next regular  
assessment becomes due. Your clinical team may also ask you to log in and  
take assessments at other times.

4

### Monitor your progress

You will be able to log-in at any time to view your progress as well as to  
complete additional assessments. You can discuss with your clinical team if  
you have any concerns prompted by the recorded data.

Specific instructions from your clinical team (if applicable)

## Frequently Asked Questions

### What should I do if I have questions or concerns about my health?

Use of the platform does not substitute your usual care, and you should follow-up  
with your clinical team if you have any questions or concerns related to your health.  
For urgent concerns or severe symptoms, you should contact your 24-hour cancer  
treatment helpline as soon as possible.

### What should I do if I have forgotten my password?

On the login page enter the email address you used to register initially, click  
'Continue' and then select 'Forgotten Password'. You will then receive an email with a  
link to reset your password.

### Is the platform secure and can I opt out?

Your personal data will be stored securely and will only be shared with the staff who  
are involved in your care. Please remember to keep your password safe and do not  
share it with others. You do not have to participate in this programme and your care  
is not dependent on your participation. You can choose to opt out at any time.

### I'm having problems using the online ePROMs system

If you have any queries regarding the online system that is supported by My Clinical  
Outcomes, please contact: [LillyePROMsBreastCancer@myclinicaloutcomes.com](mailto:LillyePROMsBreastCancer@myclinicaloutcomes.com).
